Want to make your own games or websites?**

## **Learn to Program with a One-on-One UC Berkeley Mentor**

Breakout Mentors works with kids who are excited about learning to program and want to take it further. We pair each student with one of our passionate UC Berkeley Computer Science mentors for weekly hour and a half sessions. It is fun, creative, builds a long-term interest, and there is no limit to how far your student can go!

To learn more about our mentoring, please visit <http://breakoutmentors.com> or email [info+berkeley@breakoutmentors.com](mailto:info+berkeley@breakoutmentors.com)

### **Free Intro to Scratch and Python Workshops Monday December 8th**

As part of our official Berkeley launch (we have worked with hundreds of students in Palo Alto over the last 3 years), we are hosting two beginners workshops at the Berkeley public library. Please visit <http://breakoutmentors.com/berkeley-events> for more info!
